Dear School Administrator

My name is Judy Schinkel and am a retired School District #57 employee. I have been giving sewing lessons to children age seven (7) and older and adults since September 2000. The reason for ages 7 and older is the student has to be able to read the patterns (with some help).

This year I am setting my schedule and am hoping you will assist me. I would like to have the following message put into your opening school newsletter and possibly for the months of September and October 2019.

Thank you for your help and consideration in my efforts to keep the world of sewing strong. It is a life skill that will enhance the future of all who have learned to sew. It is and can be a source of pride and relaxation.

Yours truly

Judy Schinkel
