

Sacred Heart School Accessibility Plan

Our school completed the School Physical Accessibility Audit Checklist in 2023 by:

- Steffanie Becker, Principal (2023)

This team has identified the following as goals for greater accessibility for all individuals at our school. We have set these as goals for the following two years.

- Add stair railings to the primary stairwells so there are railings on both sides of the stairwell.
- Sand and re-stain existing stair railings **(Completed Summer 2024)**
- More clearly highlight the existing disabled parking spots in the front of the building with better signage and clearer lines.
